

CASTLEWOOD HOTELS

Tradition with a twist

Smura Family & Castlewood

“A WARM WELCOME”
Family Smura

“We are very pleased about your interest in Castlewood Hotels & Resorts. Our Castlewood group is a family-run business, where a close and personal atmosphere—both within our team and in our interaction with guests—is of great importance to us.

The foundation of Castlewood was laid in 2015. Today, the group includes a collection of highly individual hotels located in some of the most unspoiled natural regions across the DACH area.

A deep connection to nature, tradition, and family values are at the heart of everything we do and are reflected in our philosophy.”

Tradition-Conscious

Tradition is very important to us without taking it too serious – means, tradition with a twist. We value the tradition of a house with its very unique history as well as the tradition of the region with its local practices and cultures. We see the very individual characters of a place with its people as highly interesting and precious. It is one of the attributes that sets us apart. The name and tradition of a house should always be continued, knowing very well, that a good house has a lasting effect on a whole region.

Family-Oriented

As a family business a family-like environment and trusted relationships are very important to us. We value a strong cohesion, communication and an honest interaction with each other. This, we live inside our team but also with you – our guests. We want you to feel comfortable and we want you to find a home away from home in us. Our brand should imply security and family to you. Our whole team is constantly by your side, eager to assist and has a sympathetic ear for you. Here, you are not just an employee or guest – but a unique human.

Nature-Connected

Most of our hotels are in rural, pristine areas. We cherish the nature with its tranquillity, its power and its diversity. Whether its in the Chiemgau Alps, the Zittau Mountains or the Bavarian Forest – while staying with us you can take a deep breath and calm down. Therefore, the connection to nature is especially important to us in all parts of services as well, as in quality, amenities and offers.
