The Herzogin Anna Amalia Library is just as close by – a magnificent palace for books. Not far away, on Herderplatz, the City Church St. Peter and Paul bears witness to Bach, Cranach and the Reformation.

MODERNISM & BAUHAUS

The new Weimar

Even before the founding of the State Bauhaus, Weimar stood for new possibilities: At the beginning of the 20th century, a creative climate for modern ideas unfolded. With the founding of the Bauhaus, it became revolutionary – and more fun. In an almost family-like atmosphere, the European avant-garde made great art and design history here.

PARKS & GARDENS

Into the green

Spacious parks are Weimar's green gems: switch from the historic cobblestones to winding promenades and take a stroll where dukes and duchesses, court ladies and visionaries sought a refreshing break back in the day. The Park on the Ilm River is adjacent to the old town. For even more relaxation, we recommend outings to Belvedere, Tiefurt and Ettersburg, the former ducal summer residences.

REMEMBER & UNDERSTAND

Weimar as a place of remembrance

The democratic heyday of the Weimar Republic was followed by dictatorship and violence in Germany. In Weimar, you can follow the traces of history from the birth of democracy to the abysses of National Socialism. In addition to the Buchenwald Memorial, the Forced Labour Museum in the so-called Gauforum, and the House of the Weimar Republic illustrate this period.

BIKE & HIKING TRAILS

Out in the country

Gentle hills, green floodplains, forests and meadows: Cycle through the Ilm valley on the four-star bike path, stopping at your leisure to discover castles, mills and farm shops – it's fun and satisfying! The neighbouring cities of Erfurt and Jena can be reached by bike on the Thuringian city cycle route. The Goethe hiking trail invites you to hike following the footsteps of the great poet.
